

# Quarterly Genealogy Session

Wednesday, March 1st

1:30 p.m.

## Topic: Repairing and cleaning Tombstones with Shane Peik

Tombstones are a valuable reference for genealogists and family researchers. But the elements can cause the tombstones to have damage that makes them hard to read or find. Shane Peik from [Gravestonecleaning.com](http://Gravestonecleaning.com) cleans and corrects tombstones that have problems. His work takes him around the United States. He will talk to the genealogy group about his work in repairing and cleaning tombstones, plaques and memorials. Program is free and open to anyone with an interest in family history and genealogy.

Brillion Public Library 326 N. Main Street, Brillion, WI 54110 920-756-3215
